Sitka, Alaska

- E. Approval of Revisions to Regents' Policy 05.12.040 Reference 21

The president recommends that:

MOTION

“The Facilities and Land Management Committee recommends that the Board of Regents approve revisions to Regents’ Policy 05.12.040 Capital Project Development: General, as presented. This motion is effective April 11, 2013.”

The revisions to this policy section conforms the required approvals for deferred maintenance projects to a path more accurately aligned with the project development process for projects which are being performed to substantially replace or upgrade building systems and extend the life of the building. The board approves a program of deferred maintenance projects at the June meeting. Those projects are most efficiently developed to schematic design approval (SDA) before an administrative review and project construction estimate are completed.

Reference 21 contains the revisions to the policy. Kit Duke, associate vice president of facilities and land management, will answer any questions regarding the policy revisions as presented.

IV. New Business

- A. Correction to the Schematic Design Approval Motion of February 21, 2013 for the University of Alaska Fairbanks Utilities Wood Center Vault

The president recommends that:

MOTION

“The Facilities and Land Management Committee approves the correction to the motion for schematic design approval for the University of Alaska Fairbanks Utilities Wood Center Vault project as approved on February 21, 2013 to change the total project cost from \$2,800,000 to not exceed \$3,000,000. This motion is effective April 11, 2013.”

RATIONALE AND RECOMMENDATION

The total project cost (TPC) of this project was changed because the final estimate for the project arrived after the schematic design approval (SDA) documents were submitted to Statewide Facilities and Land Management. The SDA documents and reference materials were revised with the correct TPC, however, the motion was not revised resulting in an incorrect TPC amount.
