Temporary dependent care costs, above and beyond regular dependent care, while in travel status are reimbursable only to UA employees as a taxable allowance not to exceed the total trip allowance of the number of business days times \$75. Receipts are not required; however, travelers must attest to the validity of the claim.

Guidance

The "Dependent Care" expense is for temporary dependent care costs incurred while traveling for UA business:

- Covers costs above and beyond regular dependent care costs
- Covers costs incurred during business travel days only (i.e., excludes personal days)
- Available to UA employees only
- Reported as a taxable allowance
- Reimbursed at a daily allowance rate
 - Attestation statements on the expense are required in lieu of receipts
 - Maximum allowance is the equivalent of \$75/business day

Allowance Rate Example:

- Regular dependent care costs for standard weekly schedule = \$300 for three days
- "Total Additional Cost Incurred" due to traveling = \$200 for two days (\$150 for the first day and \$50 for the second day)
- "Reimbursement Amount" = \$150 for two days ($\$75 \times 2 = \150)
